Financing Strategy	New 5-YR UST, FT IO, Priced at 5.40%, 2.0% Buydown. 63% LTV at TMG UW	

Overview, Opportunity, and Business Plan

Investment Overview

The opportunity is the direct acquisition of Seasons at Meridian, a 360-unit, 2024-vintage garden asset located at the I-84/Eagle Rd interchange within Boise's Meridian submarket, 4.3 miles from Prelude at Paramount. The property is 96.1% occupied and is being marketed by CBRE on behalf of Carlyle Group with \$125M (\$347K/unit) pricing guidance.

Opportunity

Leading in-migration ZIP in the metro; site at the I-84/Eagle Rd Interchange: ZIP 83642 recorded the metro's highest net in-migration over the trailing year (+2,417, or +3.5%— 2.4x the metro rate), within an MSA that added 9,196 jobs (+2.4% YoY, QCEW) and 18.8K residents (+2.2%). The interchange location fronts the Eagle Rd commercial corridor and sits within Meridian's own employment base — the St. Luke's (19 residents; 4% of tenant base), Saint Alphonsus (13; ~2.7%), ICOM (4) and the West Ada School District (4) – while the I-84 interchange places the remainder of the metro's employment nodes, including downtown Boise and Micron (10 residents; 2.0%) within direct freeway commute

Tenant base is diversified and matched to the metro's growth sectors: the rent roll spans 366 distinct employers with none above 4.0% of the base; median household income of \$89.3K covers the \$1,915 Y1 UW Mkt rent 3.89x at the median; healthcare and construction – 45% and 23% of metro job growth – account for 19.3% and 13.0% of employed residents at ~\$101K household incomes; and the tenant base incomes are strengthening – 2026 move-ins screen at a median \$96.6K, +11% above the pre-2026 base (\$86.4K), with 49% above \$100K (vs. 39%) and 4.2x coverage at Y1 UW Mkt rent

Supply is cyclically low and currently constrained: the 5-mi submarket delivered ~5,700 units over the five years ending mid-2024, driving occupancy to an 86% trough – but absorption matched deliveries and occupancy has recovered to 93.9% as current year deliveries fell to 240, the lowest in seven years, and of the ~4k proposed units within 5 mi, only two projects (470 units) hold current entitlements

- At a 6.0% - 6.5% untrended yield-on-cost, new development requires market rents of ~\$1,990-\$2,120/mo for merchant-grade product vs. our \$1,915 Y1 UW Mkt rent, and ~\$2,120-\$2,260/mo to replicate the subject's quality; escalating costs at 3%/yr, our forward market rent at sale (\$2,230) still sits 0.5%-7% below the merchant pencil and 5-12% below like-quality replication

Seasons at Meridian & Prelude at Paramount: Historical & Projected Market Rents

Key Takeaways /Summary

- In December 2025, we UW Prelude Y1 (CY-26) avg mkt rents at \$1,730 (quarterly \$1,712 / \$1,732 / \$1,746 / \$1,728) – based on Q4 25 mkt rents of \$1,693 and L5 new leases of \$1,718
- Post close, we ran ~\$43/mo (~2.5%) light in Q1 and Q2 for two reasons: 1) we UW the recovery beginning the quarter we closed; the market inflected roughly a quarter later. You can see this in Seasons at Meridian mkt rents, which bottomed in ~Nov-25 but were still flat in Feb-26; and 2) We inherited high-80s occupancy due to a leasing standstill during our DD

Seasons at Meridian & Prelude at Paramount: Historical & Projected Market Rents

UW Avg Mkt Rents		~2027	~2028	~2029	~2030	~2031
Seasons		\$1,915	\$1,992	\$2,071	\$2,154	\$2,230
Prelude		\$1,776	\$1,838	\$1,907	\$1,977	\$2,045
Delta		\$139	\$154	\$164	\$177	\$185
UW YoY Grwth		~2027	~2028	~2029	~2030	~2031
Seasons			4.0%	4.0%	4.0%	3.5%
Prelude		2.7%	3.5%	3.8%	3.7%	3.4%
May '26 - July '26 TOs		Avg Prior	Avg New	New LTOs	# of New Leases	# of Move-Outs
Seasons		\$1,765	\$1,881	6.6%	49	52
Prelude		\$1,671	\$1,780	6.5%	23	31

Note: Leases signed May-Jul '26; term variance greater than 4 Mos excluded; rents weighted by unit mix.

Key Takeaways/Summary

- What we also got wrong at Prelude, in our favor, was the magnitude of the recovery. We drew the recovery at ~+1% quarter; off the March bottom it has actually run +10% in five months. Today's T90 Mkt (\$1,793) is \$47 above the Q3 UW, and the L5 new leases (\$1,811) is already above our Y2 (CY-27) UW Mkt rent (\$1,776)
- Seasons Y1 Mkt rent is underwritten with the same post transition / seasonality declines we experienced at Prelude
 - Y1 Avg Mkt Rent = \$1,915 (\$1,875 in Q4, \$1,855 in Q1, \$1,935 in Q2, \$1,995 in Q3) vs Today's T90 Mkt of \$1,940 and L5 new of \$1,885
- Note: Y2+ projections are shown as annual averages

Key Takeaways/Summary

- Base case UW UIRR for Seasons at Meridian is an 8.7% (UW for Prelude is 8.9% UIRR)
- Base case UW exit for Seasons at Meridian is ~\$402K/unit in ~2030 (UW exit for Prelude is ~\$360K/unit in 2030)

Seasons at Meridian – 5-Mile Supply

LEASING UP (5 properties, 815 units)								
1 Village Apartments	336	Q2 2024	97.0%	\$1,748	Rockworth Companies	2.6 mi	Mid-Rise	
2 Wesley Apartments and Townhomes	191	Q2 2024	94.0%	\$1,994	Executive Management Services, LLC	3.5 mi	Townhome	
3 Shamrock Apartments	48	Q2 2025	95.0%	—	Dc Fairview Llc	2.6 mi	Low-Rise	
4 Tauri Apartments	156	Q2 2026	100.0%	\$1,834	Brighton	4.6 mi	Townhome	
5 Delano	84	Q2 2026	45.2%	—	CBH Homes	3.3 mi	Garden	

UNDER CONSTRUCTION (5 properties, 1,177 units)								
1 South Ridge II	164	Q2 2027	TMG Y1	—	—	3.1 mi	Garden	Phase II of the delivered South Ridge I (476u, 2022) at the same Grand Fork Way site.
2 Dorado Station	212	Q3 2027	TMG Y1	—	J. Fisher Companies	4.9 mi		Broke ground Oct 2025. 100% income-restricted; not included in S&A forecast.
3 Summertown (remaining phases)	72	Q3 2027	TMG Y1	—	Shannon Robnett Industries	3.5 mi		Phased garden/rowhouse community at Ustick & Venable; early buildings leasing, three new 24-plex permits issued June 2025.
4 Centrepont	213	Q1 2028	TMG Y2	—	Studio PBA (market-rate replacement)	2.9 mi	Mid-Rise	213u market-rate approved Dec 2025 REPLACING DevCo's 239u affordable plan, which died in 2025 when its LIHTC financing collapsed. Permits issuing 2026.
5 Outer Banks Apartments	516	Q1 2029	TMG Y3		Elk Ventures (10 Mile Franklin LLC)	3.3 mi	Garden	BUILDING NOW — the only permitted deal in the ring. 3 of ~50 bldgs permitted 6/17/26; first units Q4 27-Q2 28, full 516u into 2029-30.

Seasons at Meridian – 5-Mile Supply

PROPOSED									
1	Heritage Square (ex-Union 93)	250	Q4 2030	TMG Y5	—	Pacific Companies + Ahlquist (Gray Owl)	1.9 mi		Strong sponsors and a cheap basis (\$6.77M at foreclosure) — but NO application filed as of Aug 2026 and the program is unentitled. 2030 at best.
2	Rolling Hill (Assemble Management)	200	Q1 2029	TMG Y3	—	Assemble Management	1.0 mi		Freshest entitlement in the ring (approved 5-1 on 5/19/26, no lapse risk to ~2028) — but land was LOI-stage, not closed, and the access road is unfunded.
3	Pine 43 Multifamily (H-2024-0071 CUP)	270	Q1 2030	TMG Y4	—	DRB Investments (Matt Baker)	1.4 mi		CUP current to ~10/21/27 and the sponsor has real credibility (built Dovetail here) — but its own guidance is townhomes FIRST, groundbreaking "2027 or later."
4	Meridian OZ Apartments	36	TBD	—	—	SOLD 8/7/26 — buyer unknown (was Realm Venture)	1.1 mi	Garden	SOLD 8/7/26 for \$1.7M. CUP expires ~10/17/26 — about 8 weeks out — with no extension filed and no sign the new owner is moving to permit.
5	12565 West Fairview Avenue	275	TBD	—	—	UNVERIFIED — not publicly disclosed	2.1 mi	Mid-Rise	Shows "Entitled" on Boise's tracker but the developer is unknown and there is no permit 16 months post concept review. Structured-parking product
6	The Judy (Maple Grove & Overland)	162	Q3 2028	TMG Y2	—	Hawkins Companies	3.4 mi		Real dirt moved (~4.2 of 6.1 ac graded) but the CUP clock appears to expire ~9/10/26 with no extension found. Watch for a lapse or extension filing.
7	Ascent Overland	138	TBD	—	—	MVRK Development (under contract 8/7/26)	1.5 mi	Mid-Rise	UNDER CONTRACT 8/7/26 after 469 days on market — the developer chose to sell rather than build. Buyer and intent unknown.
8	Record	472	TBD	—	—	Brighton Development	1.9 mi	Mid-Rise	ENTITLEMENT LAPSED. Base clock ran out ~Apr/May 2024 and even a maximum extension expired ~Apr/May 2026. Requires full re-entitlement.
9	Victory Flats	301	TBD	—	—	Welltower Inc (Layton Construction)	3.9 mi	Townhome	Extension-as-life-support: the Jan-2024 extension ALSO lapsed and a SECOND request was docketed 5/4/26. Healthcare REIT owner; MF is non-core.
10	Emblem Meridian (Quarterra)	250	Q4 2029	TMG Y4	—	Quarterra (TPG-controlled); land: Baron Properties	1.0 mi	Garden	Earliest-stage deal in the pipeline — no application, no H-file, no hearing, AND Quarterra does not own the land (Baron is still trying to sell it).
11	The Gateway at Ten Mile	390	Q1 2032	TMG Y6	—	GFI Meridian Investments (Trevor Gasser)	3.7 mi	Mid-Rise	Developer says residential is 5-7 years out; commercial builds first and is only at pad-leasing stage. CUP lapses ~11/19/26.
12	The Cole Denton	224	Q1 2032	TMG Y6	—	Kal Pacific (Don Veasy)	4.5 mi	Mid-Rise	No entitlement for the 224u program — the only approval this site ever had was a 2021 DA for 136u that was never permitted. Post-2031.
13	Vanguard Village	552	Q2 2031	TMG Y5	—	Endurance Holdings / Challenger Dev (CBH)	4.3 mi	Mid-Rise	NOT under construction — CoStar flag is wrong. Raw land, zero permits, CUP likely lapsed ~Jul 2024. Treat as dormant paper.
14	Syringa Crossing	302		—	—	Hawkins Companies	2.8 mi	Mid-Rise	NOT entitled. Unanimous P&Z denial rec 4/2/26, council remand 6/16/26, re-heard 8/6/26 with the outcome still unpublished. 302u is Phase 1 only.
15	12548 West Overland Road	156		—	—	Hook Family Trust	1.1 mi	Mid-Rise	LAPSED — PUD commencement passed ~3/12/26 with no extension ever filed; zero city activity since 10/23/23. Site earns income as RV storage.

Key Takeaways/Summary

- The forward supply forecast includes not only the under construction, but also the proposed projects on the prior slide
- The submarket has already cleared a larger supply wave than anything in the forecast: ~5,700 units delivered over the five years ending mid-2024 (peak 1,575/yr) drove 5-mi occupancy to an 86.1% trough – while population growth, wage growth, and absorption remained strong – and occupancy recovered to 93.9% as deliveries fell to 240, the lowest of the seven years tracked
- Even with proposed projects included, forecast supply runs below forecast demand: ~1,850 units across the 4-year hold (~460/yr) remain below the average absorption of the past three years (~860/yr)
- The growth-vs-consensus gap is almost entirely Year 1, which is already being achieved: TMG’s 4.6% average exceeds the 3.5% consensus on the strength of Y1’s +~9% (current T90 of \$1,939, and L5 executed of \$1,885); from Y2 forward TMG averages 3.7% vs. a 3.5% consensus

Boise Economy — Where the Job Growth Comes From

BOISE CITY MSA · TAX-RECORD + DEVICE-PANEL DATA THROUGH JUN-2026

Jobs Added by Sector — UI Tax Records (QCEW), Ada + Canyon, Q4-2025 vs Q4-2024			
SECTOR	JOBS ADDED	% OF GROWTH	AVG WAGE (ADA)
Health care & social assistance	+4,161	45%	\$66,560
Construction	+2,159	23%	\$93,860
State + local government	+1,946	21%	\$55–60k
Admin & support services	+916	10%	\$60,736
Retail + wholesale trade	+896	10%	\$50–107k
Food service + transportation/logistics	+661	7%	\$27–60k
Office economy & mfg (prof svcs · finance · info · federal · mfg)	–1,999	—	\$94–255k
TOTAL — Ada + Canyon	+9,196	+2.4% YoY	\$70,637 blended

Who's behind it: St. Luke's (\$1.1B tower; Meridian service center opened '25) + Saint Alphonsus (\$450M program) with hospital postings +44% YoY; construction = Micron ID1/ID2 (~4,500 peak), hospitals, \$700M airport, Meta Kuna, District at Ten Mile — at \$94k avg wages. Shrinking column = white-collar office economy (HP exits '27). **Micron directly = ~1.6% of metro jobs.** State-gov line pre-dates the 2026 budget cuts (~7.4% YoY by Jun-26) — expect it to flip.

COMMITTED CATALYSTS — FUNDED / UNDER CONSTRUCTION

Open / 2026	Amazon same-day hub Nampa (400 jobs) · Meta Kuna operational (+125MW solar online) · Costco #2 (Lake Hazel, late-26) · Tractor Supply DC (500, hiring) · Live Nation "Revolution 2" venue @ Eagle View · Saint Al's Nampa surgery center (opened Jul-26) · Allied Business Solutions HQ → Meridian (~100) · West Ada: Star ES opens; Lake Hazel ES rebuild starts (\$140M program)
2027	Micron ID1 first DRAM output (construction completes '26; semis postings +92%) · District Ph-1: Target (May), Life Time (200+), In-N-Out, 2 hotels, ~500K SF industrial · SH-16 freeway completes · Gowen F-16 wing arrives · ValorC3 hyperscale DC opens (Boise) · Lake Hazel ES opens
2028–30	\$1.55B hospital openings staff up — Saint Al's Nampa tower + North Meridian plaza ('28); St. Luke's Boise tower ('29–30) · Micron ID2 ('28) · Air Liquide \$150–250M ultra-pure gas plant ('28) — first Micron supplier co-location · airport program (+\$74M FAA grants)
Announced	TRI-incented: ~500 jobs Nampa/Caldwell ('25 approvals) · Heritage Square, downtown Meridian (120K SF office + ~250 units, Ahlquist) · ISU Meridian 950K SF health-science master plan · Franklin Sensors HQ (90→~180) · Village at Meridian +110K SF · WinCo S. Meridian · Diode Kuna (\$1B+, pre-construction)

TOP IN-MIGRATION ZIPS, TREASURE VALLEY — YE JUN-26 (PLACER.AI)

#	ZIP · AREA	NET IN-MIG.	RATE	VS PRIOR YR
1	83642 · S. Meridian — the subject	+2,417	+3.5%	+1,077 accel.
2	83687 · N. Nampa	+1,604	+3.4%	+815 accel.
3	83706 · Boise Bench/BSU	+1,025	+2.8%	+1,095 accel.
4	83669 · Star	+836	+3.6%	–206

The subject's ZIP is #1 in the valley — absorbing at 2.4× the metro rate — while N. Meridian (83646) decelerated ~511: the flow is rotating to the subject's corridor. ~1,100 households formed in 83642 alone in 12 months.

Key takeaways:

1. The growth is real and hard-count verified: +9,196 jobs (+2.4%, UI tax records) and record +18.8k population in the same year the payroll survey printed +0.4% — the survey is the documented outlier, with the benchmark correction scheduled (Aug-28-26 / early-27).
2. Two-thirds of job growth is healthcare + construction at \$67–94k wages, with a funded catalyst pipeline through 2030 (Micron ID1 '27 → ID2 + Air Liquide '28 → \$1.55B hospitals '28-30) — and Micron itself is only ~1.6% of metro jobs today.
3. The migration engine re-accelerated to top-5 in the nation, fed by high-cost coastal metros — and its #1 landing zone is the subject's ZIP (p. 2).

Sources: Sector jobs & wages — BLS QCEW (UI tax records; ~97% job coverage), Ada 16001 + Canyon 16027, Q4-25 vs Q4-24, avg weekly wage annualized (pulled 8/14/26). Payroll chart — BLS CES SMU1614260000000001, T3M Apr–Jun avg YoY; CES preliminary, state/area benchmark rev. Aug 28, 2026. Population & migration — Placer.ai device panels (client-provided); MSA growth-breakdown monthly file (component chart; O-D table used for origin mix only per client), all-CBSA/county files (ranks), ZIP files. Catalysts — company/agency releases & local press (BoiseDev, IBR, Idaho Press, Idaho Statesman, Idaho DOL, Idaho Commerce TRI list), each item dated in deal-file appendices B/H + catalyst refresh 8/14/26. Wages/postings — Idaho DOL OEWS 2025; Around 5W Idaho (Apr-26).

Population Reality vs. Payroll Noise — Same Metro, Same Years

Strongest year in the 5-yr panel — +2.2% (~4× the US +0.5%); net domestic migration nearly doubled YoY to +11.6k — #5 of 925 US CBSAs; Ada Co. = #8 of 3,126 US counties. Population base: Placer adjusted 853.6k (Jun-26).

Population at a 5-yr high and tax-record jobs at +2.4% in the very year the survey printed +0.4% — the survey is the outlier. Cause: the shutdown-quarter collection break + CES birth-death model (undercounted 9 of 10 fast-growth metros; Boise worst at ~1.4pp). State/area benchmark re-anchors CES to QCEW in early 2027; preliminary Aug 28, 2026.

LABOR MARKET — SUPPLY-CONSTRAINED, NOT DEMAND-BROKEN

+4.7% IDAHO WAGE GROWTH '25 — 3RD-FASTEST IN US	3.4% MSA UNEMPLOYMENT (US 4.4%)	+11% SW IDAHO JOB POSTINGS YOY	+44% HOSPITAL POSTINGS YOY · RNS #1 POSTED
--	------------------------------------	-----------------------------------	---

WHERE THEY COME FROM — TOP ORIGIN METROS (NET, YE JUN-26 VS PRIOR YR)

ORIGIN	NET	PRIOR YR	ORIGIN MHHI	TREND
Los Angeles	+670	+980	\$96k	slowing
San Francisco	+600	+229	\$136k	2.6×
Riverside–San Bern.	+523	+541	\$90k	steady
Washington DC	+338	+166	\$127k	2.0× — federal exodus
Seattle · Portland · Sacramento	+801	+310	\$97–115k	2.6× combined

What the O-D data says: California = 47% of net inflow, and the accelerating feeders are the high-cost coasts + DC. Outflows are small and aimed at cheap metros (Nashville ~159 · OKC ~139) — classic housing-cost-arbitrage in-migration; arriving households match local incomes (in-mover HHI ≈ 1.0× incumbent).

ZIP 83642 & the Seasons Tenant Base — the Demand, Mapped

SEASONS AT MERIDIAN · 360 UNITS · 2024 VINTAGE · OVERLAND & EAGLE AT I-84

Trade Area — Satellite, To Scale · Employer Markers Show Seasons Resident Counts

Also on the rent roll near the map: Silverstone/El Dorado employers incl. Citi & T-Mobile; Eagle Rd retail spine — Chick-fil-A (5) · Albertsons (5) · Starbucks (3); Boise State (3) & State of Idaho (4) downtown; self-employed (10) · gig (5) · retired (5). **366 distinct employers; the largest is 4.0% of the base.**

The Tenant Base Is the Growth Map — 305 Units / 613 Occupants (7/10/26)

2.0% MICRON-DIRECT SHARE OF EMPLOYED (9 RESIDENTS)	4.0% LARGEST SINGLE EMPLOYER (ST. LUKE'S, 19)	\$80-89k MEDIAN HH INCOME (SCREENING BASES)	3.89x MEDIAN COVERAGE VS Y1 UW RENT \$1,915 · 75% ≥3.0X
27.5 MEDIAN AGE (CITY 37.5) · 51% AGED 18-29	50% DUAL-EARNER HHS · 34% ROOMMATE HHS	95.0% OCCUPIED — 342/360 (7/9/26 RENT ROLL)	+9.5-10.7% EFFECTIVE TRADE-OUTS AT FIRST TURN (RENEW / NEW)

CAPTURE — TENANT INDUSTRY SHARE VS. SHARE OF METRO JOB GROWTH

INDUSTRY	% OF EMPLOYED TENANTS	% OF METRO JOB GROWTH	MEDIAN HH INCOME*
Healthcare	19.3%	45%	\$100.8k
Construction / trades	13.0%	23%	\$101.1k
Food service / hospitality	9.2%	4%	\$81.7k
Tech / semiconductors	8.4%	—	\$90.8k
Professional services	8.4%	—	\$98.1k
Government / public safety	7.5%	21%	\$93.9k
Transportation / logistics	6.1%	3%	\$102.3k

*Median screened household income of units with ≥1 worker in the industry (dual-earner/roommate pairing lifts household income well above individual pay — e.g., healthcare workers individually median \$55k but their households \$101k). The metro's two biggest growth engines are the tenant base's two biggest industries; Micron's fab-ops ramp (mid-'27) reads through the tech line — upside, not dependency.

2,500-3,500 / yr RENTER HOUSEHOLDS FORMED, METRO (JOBS + MIGRATION) vs ~1,100 units delivering 2026 — and ~1,100 HHs formed in ZIP 83642 alone (≈7× Seasons' annual turn volume).	>\$2,000 / mo OWN-VS-RENT SPREAD (JUL-26) \$550k Meridian median home ≈ \$3,700+/mo all-in at ~6.5% vs ~\$1,700 rents — the trap that keeps the 18-29 cohort renting.
--	---

First turn: 71% of initial leases carried ~1.2 months free (\$2,058 avg); burn-off is converting to **+9.5% effective renewal** / **+10.7% new-lease trade-outs** (retention 42% cumulative, ~50% recent months ex-July; 23 days avg vacant).

Key takeaways:

- 1. The map is the demand case:** a dozen named employers inside a 10-minute drive, and Seasons' own rent roll works at them — St. Luke's (19 residents), Saint Alphonsus (13), ICCU, West Ada, ICOM, ISP — with Micron (10) and Amazon (7) a 15-20 minute commute in either direction.
- 2. Diversification is evidence, not narrative:** 366 employers, none over 4%; Micron-direct is 2.0% of the base; the tenant industry mix mirrors the QCEW growth map (healthcare #1, construction #2).
- 3. The subject's ZIP absorbs migration at 2.4× the metro rate** and formed ~7× the property's annual turn volume in new households last year — demand the first turn is already converting at +10% effective trade-outs.

Sources: Map — Esri World Imagery tiles (Imagery © Esri, Maxar, Earthstar Geographics), Web-Mercator z14, to scale (1-mi bar); marker positions geocoded from public records (approximate). Employer resident counts — seller Demographics Report w/Roommates 7/10/26 (St. Luke's/Saint Alphonsus counts are system-wide employment, mapped at nearest major facility). Tenant statistics — Seasons Demographic Analysis workbook (screened basis; n=280 income-reporting HHs) + 7/9/26 rent roll; rent coverage computed vs Milestone Y1 UW market rent \$1,915/mo; industry HH incomes = median screened HH income of units with ≥1 worker in the industry. First turn — First Turn Analysis (Yardi rent rolls + concession burn-off reports; 314-resident cohort). Migration — Placer.ai ZIP/county/CBSA panels YE Jun-26. Renter-HH formation — QCEW jobs + Placer migration channels (method: deal-file "Job Growth to Renter Demand Map"). Own-vs-rent — Redfin Meridian Jul-26 at ~6.5% 30-yr; rate-sensitive.
